"Innovations for a better care"

# Medinvent's Products

- A range of large core soft tissue biopsy needles
- Based on NEW double rota-cutting technique
- 8 – 14 Gauge
- Vacuum system on Single Use

## Product portfolio:

- Spirotome Single Use/Reusable
- Spirotome Cervicore™
- Spirotome MRI™
- Spirotome Bone™
- Spirotome Easy Punch™

- Automated version
- Handheld or stereotactically positioned
- Reusable handle controller, disposable 8 – 10 Gauge needles
- Vacuum assisted system
- Multiple samples without reinserting

"Innovations for a better care"™

# Medinvent's Applications

**SPIROTOME**

## Spirotome™

- Breast
- Thyroid
- Salivary glands
- Thoracic wall
- Abdominal wall
- Lymph nodes
- Muscle
- Liver

## Spirotome Cervicore™

- Cervix
- Uterus

## Spirotome Bone™

- Soft tissues within bone

## Spirotome Easy Punch™

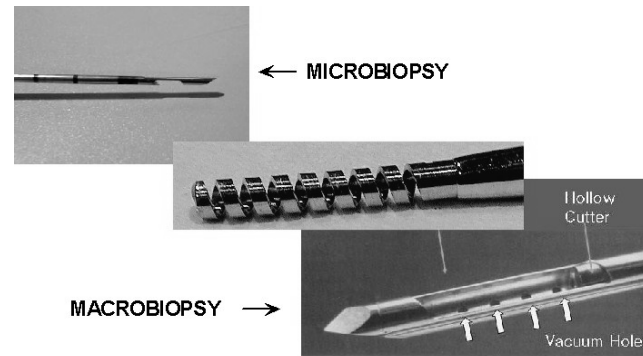

- Skin
- Vulva

**CORAMATE**

## Coramate™

- Breast
- Thyroid
- Salivary glands
- Thoracic wall
- Abdominal wall
- Lymph nodes
- Muscle

"Innovations for a better care™"

# What's in a needle ?

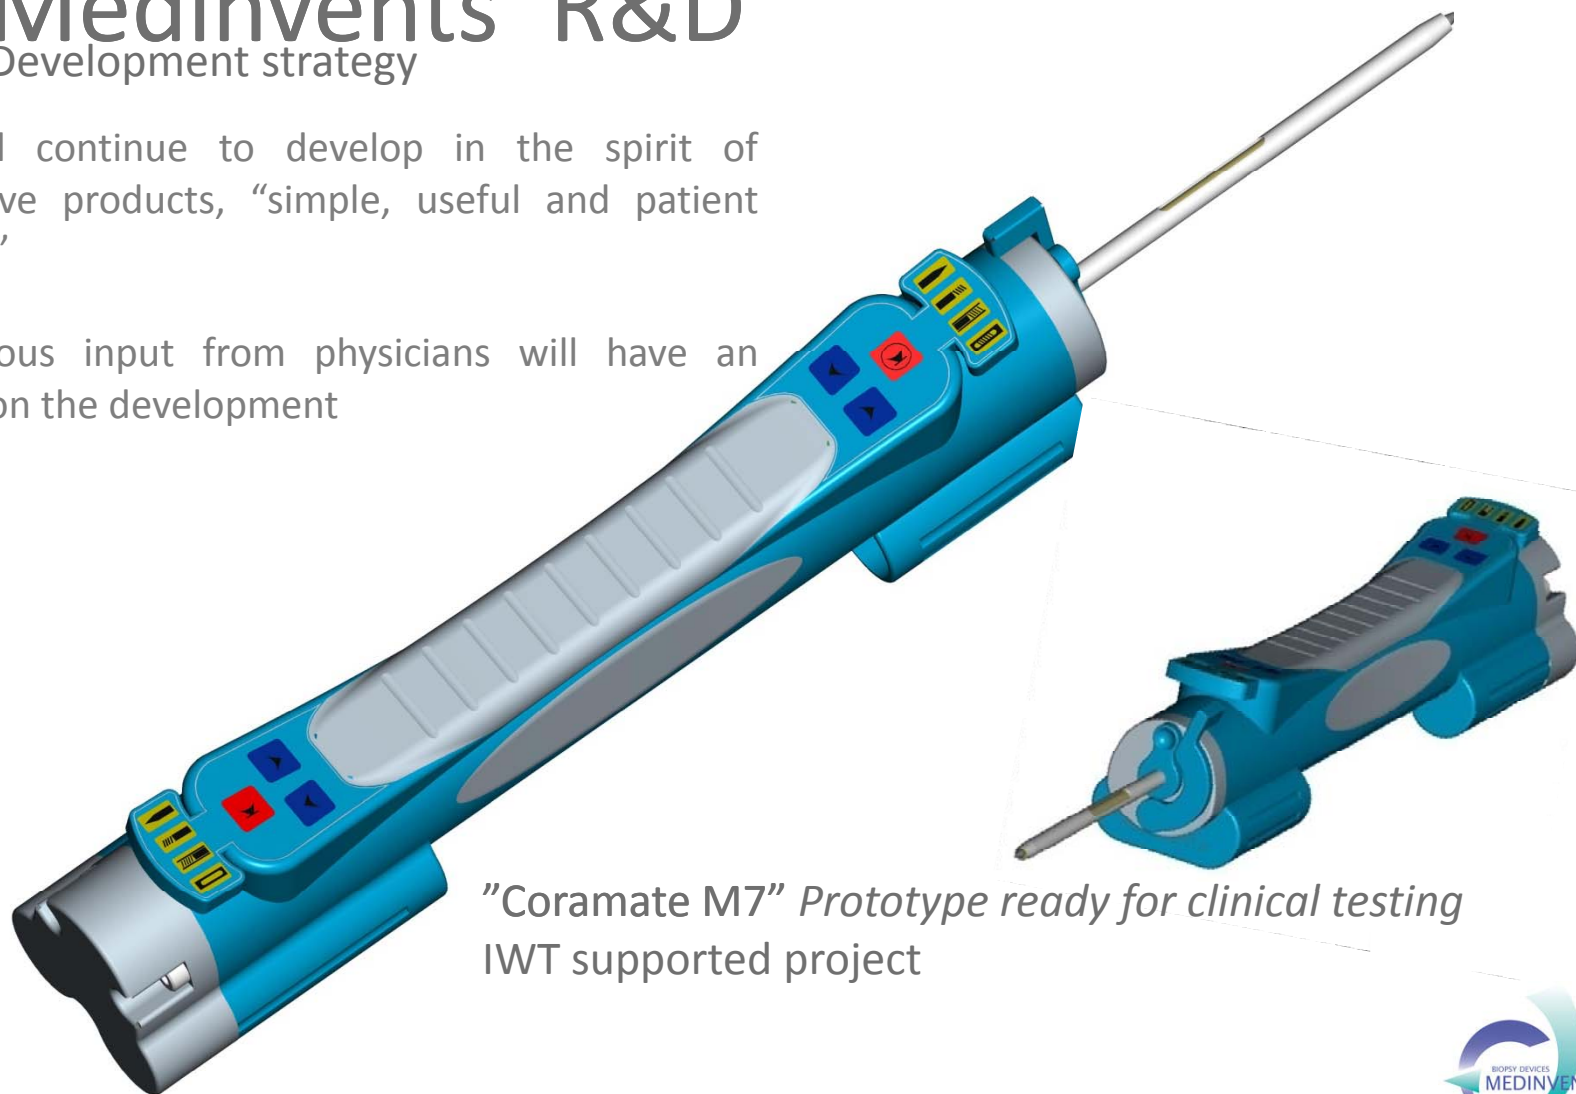

# Medinvent's R&D

Development strategy

We will continue to develop in the spirit of innovative products, "simple, useful and patient friendly"

Continuous input from physicians will have an impact on the development

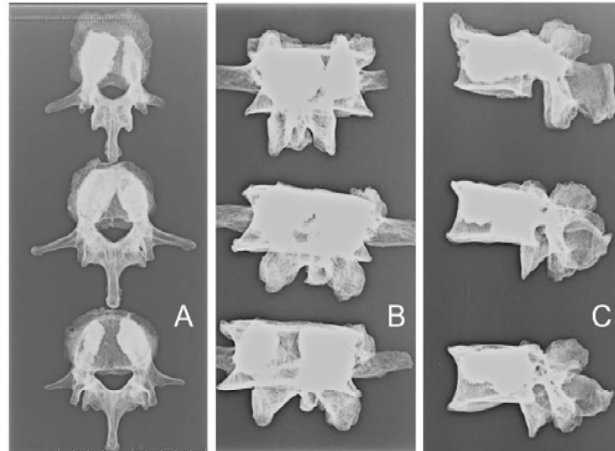

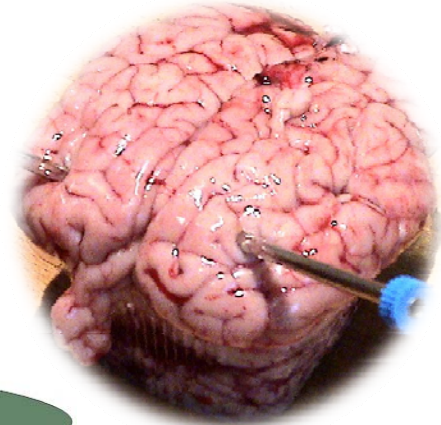

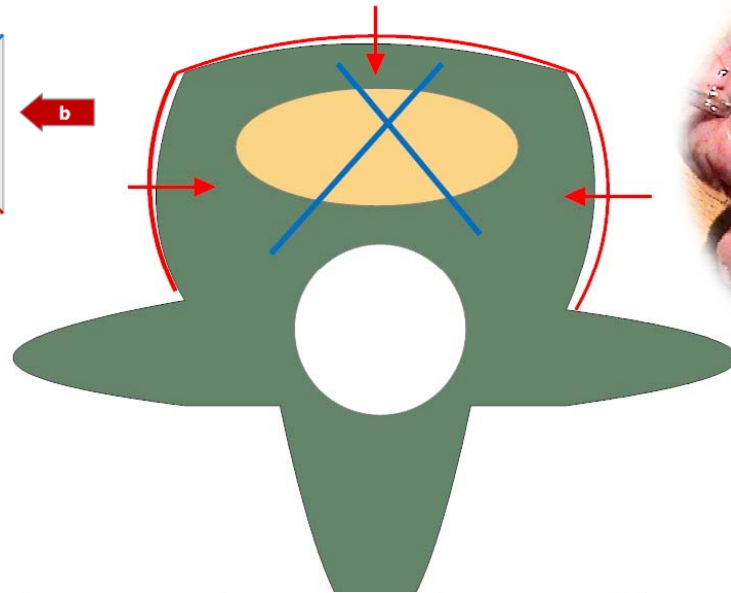

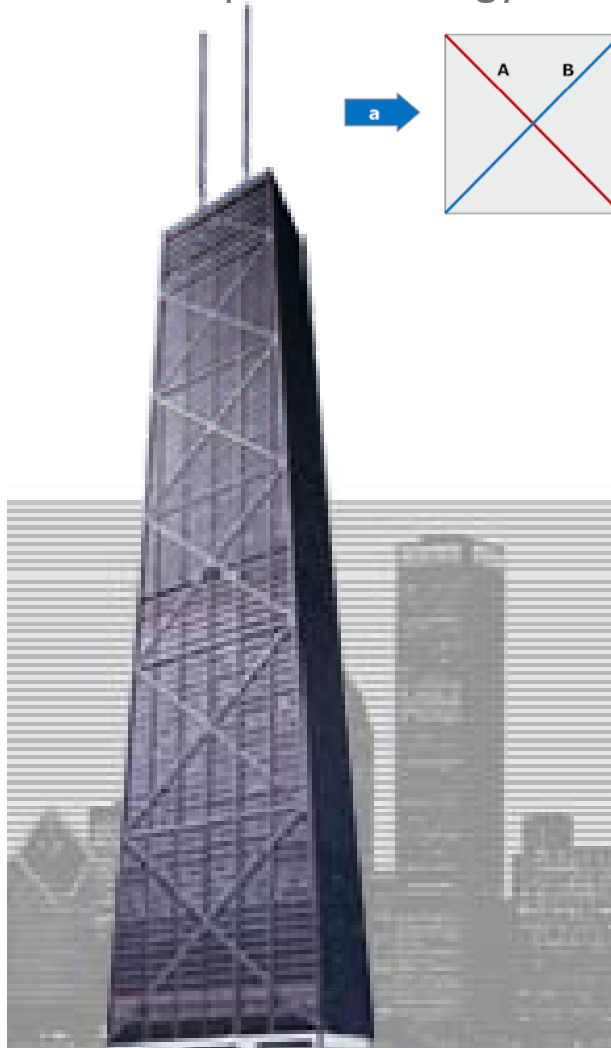

*"Coramate M7" Prototype ready for clinical testing*  
IWT supported project
